

SANTHOSH K

Full Stack Developer | React.js · FastAPI · AI Augmented Development

santhoshsiva990@gmail.com | +91 7305486179 | linkedin.com/in/santhosh0619 | github.com/Santhosh0619 | santhosh0619.github.io

PROFESSIONAL SUMMARY

MCA graduate working across React.js and FastAPI. Built the Study Calendar feature on a medical education platform used by over 1 million students, got a broken React and FastAPI app back to working order within a month, and built backend modules for a manufacturing ERP. Uses Claude Code daily to move faster, while still reviewing and testing everything that ships.

EXPERIENCE

SOFTWARE DEVELOPER INTERN | KodeAstra | May 2026 – Present

Archer Review, Medical Education Platform | *React JS, Redux Toolkit, Redux Saga, FastAPI*

- Built the Study Calendar feature under senior mentorship, used by over 1 million students to generate personalized 1 to 6 month exam prep schedules. Built the React interface, with Redux Toolkit and Redux Saga handling the state and API calls.
- Built the Educator Grading feature across the frontend and backend, letting educators set custom grade boundaries (say 80% for an A in one scheme, 90% in another) that show up correctly in student statistics without disturbing other schemes.

Planibble, Cloud Fitness Platform | *React JS, FastAPI, PostgreSQL*

- Took over a React and FastAPI app the client had stopped using and got it fully working again within a month.
- Fixed profile updates that weren't saving because the submit button was never wired to the API, corrected bad request data that was breaking workout generation, and got completed workouts showing up in history again.
- Set up an AI assisted development workflow with Claude Code to speed up tracing root causes across the frontend and backend.

AI Development Pipeline, Internal Tooling | *GitHub Actions, Claude Code, MCP*

- Built a GitHub Actions pipeline of Claude Code sub agents covering everything from requirement docs to automated PR review and merge, including a Requirement Compliance agent that checks generated code against its own specs, Playwright MCP for browser checks, and mobile approval before risky steps. Pitched it to leadership as a proposal for team wide adoption.

SOFTWARE DEVELOPER INTERN | Ash7Hub | Dec 2025 – Mar 2026

FlowCRM, Manufacturing ERP Platform | *FastAPI, PostgreSQL, Razorpay, Brevo*

- Owned the customer flow modules (enquiry, quotation, invoicing) and project setup on an ERP built with one other developer, and built the Final Inspection module that auto reconciles document completeness across four upstream modules.
- Integrated Razorpay Payment Links with HMAC verified webhooks across 8 payment modes, covered by automated tests.

PROJECTS

Personal Expense Tracker | *React JS, Vite, Recharts, FastAPI, OpenPyXL*

- Built a responsive React app for logging expenses by category, setting a monthly salary and budget, and tracking spend on a dashboard with Recharts pie and bar charts. Deployed it on Netlify.
- Built the FastAPI backend behind it, with 14 endpoints for auth, expenses, budgets, category analysis, and Excel export.

TECHNICAL SKILLS

Frontend: React JS, Redux Toolkit, Redux Saga, JavaScript, HTML, CSS, Vite, React Router

Backend: Python, FastAPI, Spring Boot, REST APIs, Java

Databases: PostgreSQL, MySQL, Redis

AI Augmented Development: Claude Code, MCP, Sub Agents, Agent Skills, Cursor AI, LangChain, LangGraph, RAG

Tools: Git, GitHub, GitHub Actions, Docker, Postman, Playwright, VS Code

CERTIFICATIONS

Anthropic: 11-course learning path, including Claude Code in Action, MCP (Intro and Advanced), Agent Skills, Subagents

Coursera: IBM Full Stack JavaScript Developer, Spring Framework for Java Development

EDUCATION

MCA, 77.4% | KGISL Institute of Information Management, Coimbatore

Aug 2024 – Apr 2026

B.Sc. Computer Science, 82.8% | Sri Ramakrishna College of Arts and Science, Coimbatore

Aug 2021 – May 2024
